His background in electronics, complemented by a certificate in electronic, equips him with the technical knowledge necessary to lead a highly specialized company. Yang's dedication to excellence has been pivotal in fostering a culture of innovation and responsiveness within the organization.

Market Position and Strengths

Ebcotech Machinery enjoys a solid market position, serving 100% domestic customers. The company boasts notable certifications, including the Sirim and TUV test reports, which underscore its commitment to quality and compliance with industry standards. Monthly revenues range from RM 410K to RM 500K, with a growing online revenue segment contributing 10% from various offline product sales..

Customer Base & Revenue

Ebcotech focuses on the local market, providing essential autodoor and glass solutions. This domestic concentration ensures prompt, effective service tailored to Malaysian clientele.

Growth & Future Plans

The company is seeking RM 500K in funding to establish an R&D department and technician training center. These initiatives will enhance service quality and facilitate international expansion through global exhibitions, securing Ebcotech's industry leadership.

With a clear roadmap for innovation and development, Ebcotech Machinery Sdn Bhd stands ready to navigate the future while continuing to meet and exceed customer expectations.

#Leadership and Expertise

Under the leadership of CFO Soo Mei Lin, whose financial acumen is backed by partial ACCA studies, EBCOTECH leverages her expertise in finance to drive the company's strategic vision. With 12 years of experience, Soo Mei Lin has cultivated a robust operational structure that emphasizes efficiency, financial transparency, and adherence to regulatory standards. Her proficiency in finance and management underpins the company's growth and stability.

Business Structure and Operations

EBCOTECH operates with a dedicated team of 20 employees, capitalizing on a self-owned property that facilitates the smooth execution of operations. Though currently conducting business offline, this structure allows for personalized customer engagement and service delivery. The company's property and employee framework create an agile and responsive operational environment.

Market Position and Strengths

EBCOTECH stands out with its TUV and SIRIM certifications, reflecting its commitment to quality and industry standards. The company enjoys a significant competitive edge due to its strong domestic customer base, which constitutes 100% of sales. Monthly revenues range from RM 410,000 to RM 500,000, with a modest online presence contributing 10% to total earnings. This stable financial model highlights EBCOTECH's strong local market position and customer loyalty.

#Customer Base and Revenue Streams

EBCOTECH's customers are 100% domestic, benefiting from targeted marketing and customized service offerings that meet local demand. The business generates substantial revenue through its offline operations while exploring opportunities to enhance its online presence and sales approach.

Growth Strategy and Future Plans

Looking ahead, EBCOTECH plans to secure a loan of RM500,000 aimed at developing its R&D department like local OEM or self build parts to expand local and oversea market . We aim to set up training center for each 14 stage of Malaysia to cover service by service contract. This strategic investment will position the company to capitalize on market opportunities, expand its offerings, and maintain its competitive advantage. The future is promising as EBCOTECH Machinery SDN BHD continues to strengthen its footprint in the automatic door systems market.

Automatic Door System GW-HH350

Our Solution *

This Door was installed in Menara Public Gold. The building has a extra large interior as it was meant to be elegant. Therefore they have a large size of glass door requirement. With our GW-HH350 Super Heavy Duty System, door weighted up to 400kg can be handled flawlessly, as it is one of our heavy-duty door system.

Automatic Door System GW-HH200B

Our Service *

Service in one crucial factor why choosing us. Before moving into this section, let's to a brief product introduction.

This GW-HH200B is a budget alternative heavy-duty system. It is capable to llift up to 200KG weighted door.

The photo here is a reference where we installed this model of our products in Aeon Mall Cheras Selatan. Due to customer feedback, we send our techinician to adjust the air flow speed to set our system back to normal.

Our Quality

Here's our hot-selling Automatic door system, GW-HH150. We have two specifications, which is GW-HH150 easy and GW-HH150 premium, allowing customers to opt based on their demanding. Both holds SIRIM, TUV, & JKR certificate.

Automatic Door System GW-HH150

Our aluminium quality is best of the best. It's manufactured by Malaysia local big company PMB Aluminium Sdn Bhd. Besides, all model, include GW-HH150, are TUV certified. We want to ensure customers can enjoy a safety automated door access experience with a safety assurance.

Manual Door Systems

Before

After

Folding Door System GW-FW8900

Here's a comparable case for you. These two picutes visualises the differences before and after installing GeWalt's folding door system in her house. The old sliding door has a track down thereto guide the movement of the door. Although this may ensure stability or the door, it also decreases the design of the interior and way of using it costs will requires more strength.

By looking at the second pictures, you can obviously notice a sense of elegant design. Besides, it is much more convenient. It can be open and close through just a pull. We can confidently state that this is truly an interior upgrade. In terms of price, we stay at a very competitive position, ensuring everyone who demands this product is capable to enjoy our product by making it affordable.

Our Accessories*

Let's talk about one common accessories of us in the market. Floor hinge is one popular glass accessories of us. It expands and reaches a max 130 degree opening angle, ensuring flexibility of usage. This photo is taken in Chuai Heng Banquet Hall, KL.

The manual opening model is GW-V84. if u need an automatic one, we are well-prepared for you. Our GW-DZ01 offers you an automatic experience, with an adjustable speed 3-14 seconds per movement (either opening or closing).

Floor Hinge GW-V84

Automatic Products

Automatic Swing System GW-HB220

This is one of the common and popular types of automatic door system that the market has been demanding in this era. GW-HB220 is a system that install on the top wall and top frame of the door.

The door in the second picture is refering to one of our case installed in Zus Coffee's HQ. Installing this door makes it feels industrial, more resembling to an office's interior design.
